There is no such thing as "brotherly love" when "Prexy" decides he wants his football team to emerge victorious over that bunch of great Presbyterian stalwarts—Westminster.

He (we don't like to say this, but it's gospel) secretly convived with "certain" members of the Kilty Band, and deliberately ordered these certain members to go through the hallowed halls—when every good Presbyterian, male or otherwise, was studiously engrossed in learning why—and blare forth on their interdenominational instruments.

Result: (serves him right!) Prexy was hoisted on sturdy shoulders and paraded to the Court House where a great pep rally took place.

Waynesburg emerged victor over Westminster, too, by golly!

A PROCLAMATION

More than three centuries ago the Pilgrim Fathers deemed it fitting to pause in their autumn labors and to give thanks to Almighty God for the abundant yield of the soil of their new homeland. In keeping with that custom, hallowed by generations of observance, our hearts impel us, once again in this autumnal season, to turn in humble gratitude to the giver of our bounties.

We are profoundly grateful for the blessings bestowed upon us: the preservation of our freedom, so dearly bought and so highly prized; our opportunities for human welfare and happiness, so limitless in their scope; our material prosperity, so far surpassing that of earlier years; and our private spiritual blessings, so deeply cherished by all. For these we offer fervent thanks to God.

With the cooperation of our Allies we are striving to attain a permanent peace, and to assure success in achieving that coveted goal we reverently place our faith in the

Now, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, according to our treasured tradition, and in conformity with the joint resolution of Congress approved on December 26, 1941, designating the fourth Thursday of November in each year as Thanksgiving Day, do hereby proclaim Thursday, November 22, 1951, as a day of natoinal thanksgiving. Let us all on that day, in our homes and in our places of worship, individually and in groups, render homage to Almighty God. Let us recall the words of the Psalmist, "O give thanks unto the Lord; for He is good: for His mercy endureth forever." Let us also, on the appointed day, seek divine aid in the quest for peace.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be

Done at the City of Washington this first day of November, in the year of our Lord nineteen hundred and fifty-one, and of the independence of the United States of America the one hundred and seventy-sixth.

Governor in Ohio

Charles P. Taft will get no help from his older brother, Senator Robert A. Taft, in his campaign for the Republican nomination for governor of Ohio.

Told in Kansas City Friday that the 54-year-old Charles had formally announced his entry into the political picture, the senator, a candidate for the Republican nomination for President, said:

"I'm not going to take any part in the primary campaign in Ohio, either in behalf of or against my brother."

THE HOOK FAMILY

THE HOOK FAMILY

From the beginning of the settlement of the Tenmile Country about Fort Jackson, no one family has played a more important part in the organization and development of this section than the Hook Family. Mr. James W. Hook of New Haven, Connecticut, a careful worker and keen investigator, has compiled an excellent "Hook History," from which the author has been permitted to draw for much of the record of the family. Until he visited Waynesburg some twenty-five years ago, very little of the family history had been preserved. His painstaking research uncovered the records that resulted in the familiary known "Hook Book," a revised edition of which is now in the manuscript form. It was his search that took the story of the Hook Family back to the immigrant ancestor. Mr. Hook's records show that Thomas Hook, (Hooke) great grandfather of Captain James Hook, was born near London, England, about 1645, and came to Maryland in April 1668. About 1680, he is known to have moved to what is now Prince George's County, where he lived on leased land not far from the present site of Laurel. Here he made his will on September 23, 1697, leaving his property to his sons, James and Thomas Hook, with provisions that they remain with their mother, whose name is given as Annaple in the administration bond signed May 26, 1698. In the sworn inventory filed July 24, 1699, it would appear that Annaple Hook had married again, and her second husband was John Wright.

James Hook, son of Thomas Hook, the immigrant, was born about 1680. He was one of the organizers of the Rock Creek Parish on April 10, 1732. He was elected Vestryman on March 26, 1733, when George Murdock was the pastor. (Records of Rock Creek Parish, Maryland Historical Society, Baltimore, Maryland). Charles Parry's list of taxables for Rock Creek Hundred, Prince George's County, for the year 1733, includes the name of James Hook. This same list also includes the name of James Hook and proving the pastor. (Records of Rock Creek Parish, Maryland Historical Society,

Car inspection ... major protection against winter-hazard traffic accidents **

A leading factor in traffic safety at all times—Pennsylvania's twice-yearly, official car inspection makes certain your car is mechanically safe for winter driving. Of the 30 "danger spots" that are checked for good working condition in your car before you can receive the INSPECTION STICKER—28 will help you to meet winter traffic hazards safely. For instance:

VISIBILITY

All windows are checked for cracks and breaks. Mirror is checked for blemishes. Windshield wipers must work properly; all parts must be in good condition. The aim is perfect visibility—for the longer hours of darkness...for gray or foggy days...in rain, sleet or snow.

TRACTION AND STOPPING

So important on wet or icy roads to reduce the danger of skidding out of control. Steering and wheels are given seven different checks to make sure your car steers true. Tires are checked for condition of treads and casings.

SIGNAL DEVICES

Headlights focused correctly...horn working properly...all signal lights in good condition—so that you can be prepared to meet the increased demand that winter driving puts on the "eyes" and "voice" of your car.

CAR INSPECTION SAVES LIVES. THE NEW IN-SPECTION PERIOD STARTED ON NOVEMBER 1 YOU WILL NOT BE PERMITTED TO DRIVE YOUR CAR WITHOUT AN OFFICIAL INSPECTION STICKER AFTER JANUARY 31, 1952.

Developing the text of the week, "Canst thou bind the sweet influences of Pleiades, or loose the bands of Orion" we call attention to a little known group of seven stars, often called "The Seven Sisters," which you will see in the eastern sky, plainly visible except on bright moonlit nights. These Pleiades are in the shoulder of the constellation Taurus, or The Bull, where the sun will be next May 21. To the east of these "Seven Sisters," there is a a V-shaped group of five stars, one of which is red

Highlights of the recently-announced 1952 Packard line are "fashion-keying by Dorothy Draper," famous color stylist and decorator; and Packard Easamatic Power Brakes. New features of the 1952 Packard "200" Deluxe touring sedan, above, include design touches on side mouldings, new louvers and special grille and bumper design.

Matching the colorful new exterior hues, with emphasis on two-tone combinations, are brilliant interiors. Easamatic power brakes, optional on all models at slight extra cost, reduce pedal pressure 40 percent and cut "reaction lag" an average of 29 percent.

More than 70 mechanical changes and improvements have been incorporated into the eight body styles of the 1952 Packard line.

In the case of the white old-timers, many have Samoan wives. They are mostly retired merchants or servicemen. They have traded skyscrapers, smog, time clocks, and subways for surf, misty green mountains, and soft laughter in the night.

Now that the Interior Department controls Samoa and its fine harbor, a small number of tourists are welcome. The Navy ran American Samoa strictly as a military establishment and calters were limited to those on business.

But the government wants people to know more about this tiny speek of American soil. A visitors' bureau has been set up and present accomodations will provide for about 50 guests—at a rate of \$8 a day American plan.

One warning, though—the days of the tropical tramp are over. No beachcombers are invited to Samoa. You can't "go native." Nor can you drop in and hope to land a job. Contract positions and government jobs are filled. If you have the money and want to settle down, you'll have to be satisfied with a lease, because it's against the law for a non-Samoan to own land. And Samoa is hard to get to.

WHAT EVERY PARENT SHOULD Know!

The record of the Korean War will be a five-volume job, but only the one volume being prepared by Appleman will be a general history. The other volumes will deal with special aspects of the war, such as planning, logistics, guerillas and small unit actions.

A scholarly Army major, with a pencil and notebook, is pacing off the battlefields of Korea preparing notes for an official history of the conflict. Major Ray E. Appleman helped prepare the history of Okinawa in World War II and was recalled to the Army for his present job.

The record of the Korean War will be a five-volume job, but only the one volume being prepared by Appleman will be a general history. The other volumes will deal with special aspects of the war, such as planning, logistics, guerillas and small unit actions.

Appleman has already put in a month of tramping of the Montgomery County, Ohio fair grounds in the 1890s.

It has been opened up and marked by the museum to show a meteorite is formed. Preliminary examination indicates that this one is different from all other known meteorites from the Ohio-Indina-Kentucky area.

The third specimen is a 9½-pounder discovered by a farmer in 1936 who saw it fall the year before. The fourth one fell on Benton, New Brunswick, in January 1949, in a rain of about 12 pounds of meteoritic stones.

All four of the specimens are the gifts of Stuart H. Perry, a much of the specimens are spects of the war, such as planning, logistics, guerillas and small unit actions.

Appleman has already put in a month of tramping old battle sites. He plans at least another month walking, interviewing and looking before going to Washington for the actual writing "which will take another two years or so." Appleman's history will be primarily written for study at the Army war college and staff colleges.

world.

They represent four types not previously included in the museum's collection.

The most important, museum officials said today, is a streamlined 1½-pound model found in Lafayette, Ind. It is important because it resembles some of the rocks on earth more closely than the average meteorite. This gives rise to theories that more of our rocks came from the sky than

rise to theories that more of our rocks came from the sky than previously was believed.

The Lafayette meteorite has an unusually good set of markings made during its flight, Smithsonian officials said. It traveled through the air so rapidly that its surface became like molten glass. The hot liquid was swept back from the forward face and off the edges, leaving the nose streamlined and covered with delicate ridges.

Another of the meteorites is a 38-pound piece of iron found on the Montgomery County, Ohio fair grounds in the 1890s.

And the football boys obliged with a 25-0 trimming of Bethany.

Ravaged by sickness and injury, the team was tied by New River (W. Va.) College but was on the one-foot line when the game ended because Jake Porter had to race around an official blocking the goal.

Westminster was beaten 7-6 on Donnelly's scoring. The injury list thickened when Currie hurt his shoulder and Ambrose was kicked in the head.

By that time, Waynesburg was one of 13 unbe aten Eastern teams. Rated 12th in the East, the 'Pack followed schools like Cornell, Harvard and Penn. Only twice was their goal line crossed.

Doctors couldn't agree on Rollason's illness. Some called it typhoid, other undulent fever.
Bad luck stalked Waynesburg campus thereafter. The 'Pack went down before Slippery Rock, 13-0, as Brnjas was down with typhoid fever in the hospital.
He called a nurse and scribbled a note with the plea, "Send it."

After a disastrous football season, Waynesburg High School supporters are hoping the basketball team and wrestling squad will fare better. The basketball team is at last out of Section 4 in which they competed with larger schools, and should do well against schools their own size with a veteran team ready to return to action. Frank Bonifield's mat team will hold their own this year with any and all foes.

"Beat Scranton and we'll pack up for the Tangerine Bowl," is the battle cry of Waynesburg College students. So far as we can find out the college has received not even as much as a "feeler," but students are going on the basis of the St. Vincent win. We, for one, would like to see it happen, but 'till its official we'll just sit tight and hope.

Thank goodness the football season is about over. Last week we hit the skids once more coming up with six right, three wrong and one tie. Season's totals now stand at 62 right, 24 wrong, and four ties. The final season percentage mark is .720.

Things are really busting loose at Jefferson High School now that the Jeffs have been selected to play for the Class B title. We see them capturing the crown in a very close game.

A capitalistic gadget may help keep Communists in line—the party line,

the healthy, aggressive crew which tumbled mighty State.

They were a grand group with a memory. They had a lot to remember for 1932 and they were preparing a whole year in advance.

Perhaps that's why Chuck Chalfant, locker room custodian, reported that for the first time in years "some equipment" had been turned in by the athletes. In other years, many kept "souvenirs."

The bag was approved by the Communist Central Committee after a series of troublesome incidents over lost cards. Many cards had been used to collect advances. Wal Penn State he had taken a peak at the rich cup of glory.

The following year he was to drink from that cup.
