New Electric Plant on Site of Old Fort

Danny J. Edgar **Now Captain Of Company C**

VOLUME CXXIX

DANNY J. EDGAR

Danny J. Edgar of Waynes-burg, who was recently desig-nated commander of Company C (K) 110th Infantry, Pennsyl-vania National Guard, has been raised in rank from first liqu raised in rank from first lieutenant to captain. Captain Edgar enlisted in Com-

pany K in April 1948, and then served three years in the regu-lars with the First Infantry Division on occupation duty in Germany.

In October 1953, he rejoined the National Guard and was commissioned a first lieutenant in 1957

Captain Edgar succeeded Cap-tain Joseph Carroll, who had served as commander for 10 years

Fort Martin Power Station, a name derived from an old from-tier fort at the site, will be the designation of the new 500,000kilowatt electric generating unit to be built by the Allegheny Power System along the Monon-gahela River just south of Point Marion.

ESTABLISHED 1833

The \$57,500,000 plant will be located on the West Virginia sec-tion of the 950-acre site, on the west bank of the river, across which the Pennsylvania-West Vir-ginia state line runs. Preliminary construction work is to begin this

West Penn Power Company, Monongahela Power Company (which serves northern West Vir-ginia), and Potomac Edison Company are the three operating com-panies which make up the Alle-gheny Power System.

The new Fort 'Martin Power Station, due for completion in 1967, is expected to be the first of two similar units which to gether will burn some 2,700,000 tons of coal per year.

The plant is part of an overall oower supply development, an-nounced last November, involving Dower 18 investor-owned electric utilitities serving more than 30 million people. The overall project, expected to cost \$350 million, includes two generating stations, the other to be built at Elderton, in Armstrong County, by three companies of the Pennsyl-vania-New Jersey-Maryland Interconnection, and 650 miles of ex-tra-high voltage transmission tranight voltage transmission lines. The Allegheny Power Sys-tem will build 130 miles of that line at an estimated cost of \$17.5 million, one section extending from Fort Martin to the Ohio river, another north and east to connect with the Elderton plant. From there, two lines will be built Of Waynesburg Mother and Children

If It Is Convenient

This editorial by Dorothy Roe appeared in the Chicago Herald-Tribune:

Give Me Liberty'

"When are you a 'super-patriot,' a 'sub-patriot,' or a traitor?... How does one go about being just a fair-to-middling patriot, which seems to be the currently approved at-titude?... I was raised in the belief that patriotism is a fine thing and that it was not only admirable but expected that any citizen should be ready to give his life for his country.

"Now it appears from the public pronounce-ments of our leaders that it's just as bad to be too patriotic as it is to be too reasonable. If we accept this strange new reasoning, we must conclude that it is all right to be mildly patriotic or mildly traitorous, just so we carry no belief to extremes. . . . If edited by today's pundits, Patrick Henry's famous cry, 'Give me liberty or give me death!' would come out something like this: "Give me liberty if convenient, but please don't think I'm opposed to slavery.

"George Washington, following the current line, might have counseled his troops at Valley Forge thus: 'Courage, men, but not too much! Win if you can, but don't offend the enemy!'

"... I have been laboring under the belief that America was founded by passionate pa-triots and that every great advance in the history of mankind was accomplished only by complete dedication to an ideal!

"Just how would a football team fare if the coach said: 'Get out there and fight, boys, but don't let anyone know which side you're on!' "

In recent months there has been a bitter attack by the Mistaken against the American patriot. These anti-freedom forces would have us believe there is no threat at all from communism.

These members of the Mistaken couldn't be farther from the truth. They insult our intelligence by expecting us to swallow lies and half-truths.

is no threat from the menace of communism when in only half a century it has spread from its base in the Soviet Union to cover one-third of the globe.

Because of the military threat of Soviet communism alone to say nothing of its economic or psychological threats, we must spend \$50-billion each year to defend ourselves. Because of communism we have sent billions of dollars to 101 countries around the world.

It is amazing that after considering these facts any American would believe there is no threat of communism in the United States today. Why do we do these things if not to protect ourselves from the threat of the Mistaken enemies of freedom? What other reason is there except to further the cause of freedom, and to thwart the encroachment of communism?

America is a strong nation. Militarily no nation in this hemisphere is a threat to our freedom. Militarily, no country in Europe will likely endanger our independence. No other country in Asia has the military power to attack the United States. Only one country, Communist Russia, could and would-if we relaxdestroy us.

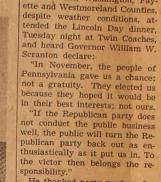

So let us not kid ourselves. Let us not let anyone say we are in no danger of Mistaken domination. Let us believe the facts not the big lie. Whether we like it or not, we are at war.

When we recognize the kind of war we are in and resolve to win no matter what the cost we shall win it. But we must fight an offensive war, not employ How can they expect us to believe there defensive tactics. (Turn to Page Four)

How to strengthen the bridge of love at your house

For some couples, of course, the honeymoon is never over.

But most husbands and wives aren't so lucky. The problems and pains of day-by-day living, the awesome conflicts of our swiftly changing world itself, all come smash together sometimes ... in what seems a concerted effort to shake the very foundations of marriage. Love just seems to go right out the window. And as the divorce courts can testify, sometimes it goes forever.

What can you do to strengthen the bridge of love in your family? Many a troubled couple has found rewarding and unexpected answers in their church. or synagogue.

Discover in yourself forgotten resources of successful, purposeful living. Worship together this week and find a deeper contentment in the life you lead.

Private Enterprise Speeds \$40,000,000 Indiana Urban Redevelopment Project

TNDIANAPOLIS, IND. — A new landmark is rising from the ruins and rubble of this city's once blighted downtown slums. Its name is James Witcomb Riley Center, and it is the mosc elaborate urban undertaking in the history of the Indiana capital The massive redevelopment project — conceived by Chicago architects Perkins & Will, and named after the famed Hoosier poet — will eventually bring new life to a 40-square-block area adjacent to the city's busi. The twin 30-story residential skyscrapers now nearing com-pletion give only a hint of the eventual scope of this \$40,000 000 effort to spur a revival of the "center city" as the econo-mic and social mainspring of the community. The nearing the social mainspring of the community.

the community. The project, aside from its local significance, also is com-

he history of the Indiana capital manding national attention from urban planners because no fed-eral aid funds are involved. Use of private capital has permitted an accelerated construction schedule. When completed, Riley Cen-ter will be virtually a "city within a city", with 2,200 lux-uxy apartment units designed to the Medallion standards of the electrical industry. All apartments are being equipped with General Electrio range, oven, refrigerator, dish-washer, garbage disposer and individual electric water heater;

afternoon.

Deaths on the streets and roads in 1962 showed an increase of 2, 900 or 8 per cent over 1961.

And the mileage death rate, which has been on a downward The death rate per 100 million vehicle miles edged up to 5.3 from 5.2 in a year of record smashing. Total travel hit 767 billion miles a gain of 29 billion or 4 per cent from the previous year.

The number of vehicles swelled to 79 million—up 4 per cent. The number of drivers went up to 91 million, a rise of 2 per cent.

State Tree Is Hemlock Pennsylvania's official state tree, the hemlock, and the official state bird, the ruffed grouse, were adopted by legislation in 1931. The official state flower, mountain laurel, was selected in 1933. The official state animal, the whitetail was not selected until 1959.

s (foreground) can produce as much horsepower as the ten compressor housed in the building in the background.

Pipeline compressors traditionally have been housed in buildings. But two years ago, Texas Eastern departed from tradition-and installed its first compressor unit out in the open. The new concept proved a good one. As additional horsepower has been needed, more outdoor units — electric motor and gas turbine driven—have been added along Texas Eastern's 7,000-mile natural gas system. The installation savings have already amounted to almost a million dollars. Future savings can run even higher.

Texas Eastern, as the leading pipeliner of energy, also takes the lead in searching for and finding new ways to cut pipelining costs-and in setting the pace for economical and efficient pipelining. This

benefits every user of natural gas in the areas served by Texas Eastern, whether in home or in industry. Texas Eastern Transmission Corporation, Houston,

If It Is Convenient

(Continued from Page One)

Russia called our bluff many times, and we submitted, what happened when the United States took a firm stand?

Many observers applauded the stand taken in Cuba last year, and again when the United States sent General Van Fleet to Greece with weapons and funds to defeat the attempted communist coup. We won in a matter of months without Soviet reaction, other than verbal protests.

We were victorious in Iran when the Soviet Union threatened to take Azerbaijan. Prompt American action drove the Soviets out. The communists withdrew when we gave quick military aid to Turkey as that nation was threatened by Soviet forces.

And when Red China threatened Quemoy and Matsu, unilateral

American action stopped them. When America has called the Soviet blufl, it has won. We shall ultimately win victory in the cold war only by sticking to our guns

How U.S. Savings Bonds turn home shoppers into home owners

The special dream and lifetime project for millions of Americans is to own their own homes. But the biggest hurdle to jump is a sizeable down payment.

The number of Americans who get over this hurdle increases each year. About 35 million families are in their own homes right now. And for many of them U.S. Savings Bonds made the difference between "shopping for" and "owning" a home.

A habit that pays off

After the war many returning veterans and their families used their Bond reserves for college educations, new business ventures, and down payments on new homes.

Since that time thousands of Americans have used their Bonds to buy, furnish, and modernize their homes.

Bonds for building blocks

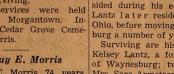

U.S. Savings Bonds are guaranteed to grow in value by Uncle Sam. You can buy them where you bank or on the "installment plan" where you work, for as little as \$2.50 a week. Your bonds are replaced free if lost or destroyed. And you can get your money, plus interest, anytime you need it.

Every Bond you buy is a share in a stronger America. Why not start saving for your dream home today?

20¹

"Savings Bonds and a home belong in everyone's future"

says O. G. Powell, President, National Association of Real Estate Boards

National Association of Real Estate Bounds "U.S. Savings Bonds and home ownership are two ways of providing security for the future-a worthy goal for every family and for the nation. A sound economy depends upon thrift. A strong country is a land where men are free in mind, in spirit, and in the right to own prop-erty. The nation's nearly 70,000 Realtors urge America's young families to invest in U.S. Sav-ings Bonds as a beginning toward achievement of these goals."

O.K. Powell.

At the Flick of a Switch

Ever stop to think how many wonderful things electricity does for you? At the flick of a switch today, you have electric servants that help you work better . . . and live better . . . than ever before possible. In your home . . . on your job . . . in your community Reddy Kilowatt does your bidding round the clock-at really low wages.

And there will always be plenty of Reddy's power! West Penn and the more than 300 other investor-owned electric light and power companies can supply all the electricity our growing country needs. Through look-ahead planning and building, we'll have enough electricity to serve you even better in the years to come.

We invite you to join in the nation-wide celebration of NATIONAL ELECTRICAL WEEK, paying tribute to Thomas Alva Edison who worked untiringly to develop the light bulb, and who brought electricity out of the laboratory into practical use for the benefit of mankind.

ELECTRICITY POWERS PROGRESS

 day, to investigate the possibility of a career in public health.
 Too-mile shot down the Atlantic Missile Range. Airman Waychoff was a missile analyst on the crew which fired the advanced version iam W. Darrow, will interview applicants for the position of pro-gram representative.
 Last year the tax produced about \$25,000 for the county.

 Persons who are liable for the tax and who fail to file a return are liable for the prometric difference of the airman son of Mr.
 Last year the tax produced about \$25,000 for the county.

 Persons who are liable for the tax and who fail to file a return are presentative.
 Leoy Miller, a member of the Greene County Assessment Office to is in charge of the personal

 staff is in charge of the personal property tax. He stated more than 1,600 report forms were mailed in January, both to persons known to hold taxable property and to others who might hold property of this type

Persons having any questions Persons naving any questions regarding personal property may call at the assessment office in the County Office Building, Waynesburg, between 8:30 a. m. and 4 p. m.

Forms for filing returns are

John Cowan Heads Easter Seal Sale

John M. Cowan, executive di-rector of the Greene County Board of Assistance, will be the 1963 chairman of the Easter Seal Society's fund-raising drive in Greene County. Greene County.

Ernest L. Warnick, president of the Greene County Society for Crippled Children and Adults, an-nounced the appointment for the campaign which will be held March 7 to April 14.

Mr. Cowan, in accepting the ap pointment, pointed out that Eas ter Seal affiliates — some 1,400 across the nation — served approximately 250,000 crippled children and adults last year.

"Some 100 research projects are currently in progress and broad educational programs are in operation nation-wide. I am in operation nation-wide. I am happy to be chairman of the 1963 Easter Seal Drive," Mr. Cowan said. "I hope that every family in Greene County will contribute during the Easter Seal campaign." Mr. Cowan is a native of Greene County and is a graduate of Waynesburg High School and Bethany College. He did graduate work at Cornell University

opment group and a member of the Waynesburg Borough Plan-

other and a picnic area in front.

Waynesburg High Wrestlers Notch 50th Straight Win for New Record

Lock Haven Takes Over Jackets, 23-7; Zrimm Only Win

It was a luckless night Satur-day for Waynesburg matmen as powerful Lock Haven overrode the Jackets, 23-7. The wrestlers are also opera-

ting under difficulties due to in-

Lock Haven had won 22 straight since midway of 1961 until the Eagles were handed a loss by Iowa State University this year. The orange and black is now 5-3.

Mike Zrimm of Avella, gave the Jackets their only decision. He is now 8-1 for the year. Summary

Lock Haven, 23 Waynesburg, 7 113-Walizer, L., pinned Hecht,

0:49 second.

130-Powell, L., decisioned Gusic, 1-0.

137—Simon, W. drew with Blacksmith, 2-2.

147-Linander, L., decisioned

Thomas. 10-6.

157-Zrimm. W, decisioned Radford, 9-3.

167-Arrigoni, W, drew with Cook, 3-3.

177-Swope, L, decisioned Shid

erly, 9-0.

Heavyweight—Sisak, L, pinned Stanek, 1:01 second. Waynesburg will tackle Mus-kingum, Saturday, at New Salem, Ohio, and have a final dual bout February 28, with St. Vincent, at Latenbe Latrobe.

Section 18 **Cage Standings**

In Section 18 basketball, West Greene snatched a 72-71 double overtime victory over Jefferson-Morgan, Tuesday night.

end of regulation time. time.

Bentleyville-Ellsworth are still undefeated, as they swamped East Washington, 73-23. Waynesburg fell to Carmi-chaels 51-50. The Mikes are in second place and Waynesburg is

now in sixth. In the Section 18 basketball

r a c e Bentleyville - Ellsworth won over Waynesburg, Friday night, 76-40, taking a firmer grip on first place.

Carmichaels, in second place, defeated Mapletown, 55-49. Jefferson - Morgan triumphed

over East Washington, 55-49

Use of a power auger to bore tapholes and of plastic tubing for conducting sap from maple trees to roadside tanks, or to evaporat-ing plants, saves a to of hard work in syrup production, users say. These innovations are among several under study by Jerome K. Pasto and Reed D. Taylor of the Pennsylvania State University Agricultural Experiment Station. Plans for centrally-operated evaporating sap have been devised. Equipment of this kind, these workers say, cheapens sap evaporation and allows uniform produc-tion of high-quality syrup. Station Bulletin 697, obtainable from County Agents' offices, contains an economic analysis of these plants.
